## July 2026 Message from Your Chapter Chair, Mary Therese Tylus, MA

Hope everyone had a Happy and SAFE 4th of July!

We have plenty of openings for golfers and the banquet at our annual Golf Outing at Carriage Greens Country Club, in Darien, Illinois, on Friday, July 17, 2026 – details also in the newsletter. This is our annual fun mid-summer event while we pause our monthly Chapter meeting schedule. Come join us for some fun in the sun and a great day of networking. See you there!

As a reminder, we are on summer hiatus from Chapter meetings during June, July, and August. Our September meeting this year will be held on Thursday, September 24, 2026. We are moving our September meeting back a week to accommodate those who will be attending GSX in Atlanta, GA, from September 13 – 16, 2026. So, mark your calendars for the September meeting date change now. We will still be publishing our monthly newsletters during the summer to keep you abreast of what is going on in the Chapter and of any upcoming events that have not been previously announced.

And finally, don't forget to sign up and attend GSX in Atlanta, GA. Registration is now open at [asisonline.org](http://asisonline.org) and will be held from September 13-16, 2026. Hope to see many of you there as well.

In the meantime, stay cool and hydrated! See you at our annual golf outing!

# Please Welcome Our New Chapter Chairs!

## **Teunta L. Cunningham**

Director of Security at Allied Universal  
ASIS Chicago Chapter NextGen Chair

I moved to Chicago from Alabama in 2009 to attend Roosevelt University, where I received a Bachelor's Degree in Psychology in 2014. I started my career in security as an officer at the University Center in 2011. By 2013, I became a Shift Manager. In 2018, I became the Assistant Director and started my current role in 2020.

As the NextGen Chair for ASIS Chicago, I plan on continuing the tradition of cultivating future leaders in security by blending what I have learned while being in Chicago with the values and experiences I received from being raised in a small, southern town. Hopefully, I will be able to inspire others to embrace the challenges of leadership, regardless of their background. All perspectives have value because we all have different points of view. I hope by organizing social and educational events, we can bring all of our views together, in order to see the full picture.

## **Heather Jokiel**

Executive Recruiter at Miller Resource Group  
ASIS Chicago Chapter Placement Chair

Heather Jokiel is thrilled to take on the Placement Chair position. On a professional front, Heather serves as an Executive Recruiter at Miller Resource Group, a recruitment firm based in Naperville, IL. She recruits within the Building Automation space with a heavy emphasis on Fire and Life Safety. Having spent over a decade in Sales and Project Management for Low-Voltage Data Networking and Physical Security infrastructure, she understands the technical requirements of the industry and prides herself on being able to "talk shop" with clients and candidates alike.

Moving forward in the role of Placement Chair, she intends to act as a resource for ASIS members seeking professional advisement for growing and/or changing their careers.

## Some Changes to Chapter Practices Beginning Immediately:

- Starting immediately, the Chapter will no longer have available at pre-registration for our events “Pay at the Door”. We have run into problems with members/nonmembers registering for events with Pay at the Door and then not showing. Because we count you in the RSVP, we are still charged for that ticket. Therefore, to avoid attempting to collect later, we are no longer providing that courtesy. All registrations starting with our Holiday Party 2025 will require payment at the time of registration.
- We will still be able to take “walk-ins” on a limited basis at our events, so if your schedule frees up at the last minute, please feel free to attend an event. The only exception is if there is a hard RSVP date, then walk-ins will not be available.
- When you pay your Chapter Dues now, you will have the option of checking the “Auto Renew Button”. This way, just like International, we are rolling out this feature to make paying your Yearly Chapter Dues easier for everyone! We hope you enroll in that new feature!
- Note that beginning with registration for our January Chapter meetings, the ticket price has gone up slightly. See elsewhere in this newsletter where we highlight the new ticket prices.

We appreciate your understanding as we implement these changes in order to maintain the financial health of the Chapter.

## New Pricing for 2026 Monthly Meetings

Due to a slight increase in pricing from Harry Caray's for 2026, our ticket prices for the monthly Chapter meetings are increasing slightly, starting with ticket sales for our January 2026 meeting:

- \$50** – Member No Parking
- \$60** – Nonmember No Parking
- \$58** – Member + Valet Parking
- \$68** – Nonmember + Valet Parking

Ticket prices for the monthly 2026 Chapter meetings for the Chapter's Law Enforcement and Military remain the same:

**\$19.00** Member Current/Retired Law Enforcement/Military Discount + Valet Parking

**\$19.00** Non-Member Current/Retired Law Enforcement/Military Discount + Valet Parking

# Fast Facts: Cyberbullying Rates Continue to Climb for U.S. Teenagers

More than 30 percent of U.S. teenagers have been victims of cyberbullying in the past 30 days, and 16 percent have been cyberbullying offenders, according to 2025 research from the Cyberbullying Research Center. Those rates have more than doubled in the past decade.

More than 58 percent of the 13-17-year-old middle and high school students said they had ever been cyberbullied. With the continued expansion of social media platforms and the potential of generative artificial intelligence to create fake and shocking content, cyberbullying has the potential to get much worse for a wide swath of students.

## In an Age of Cyberbullying and Exploitation, Digital Footprints Remain a Limited Part of Schools' BTAM Processes

Do your school behavioral threat assessments take into account a holistic view of the student's life? In 2024, U.S. teenagers spent an average of 4.8 hours a day using seven popular social media apps, according to research from the American Psychological Association. But only 15 percent of schools review a student's publicly available online or social media footprint during every behavioral threat assessment case to assess a student's risk of harm, 2025 data from the U.S. Secret Service National Threat Assessment Center (NTAC) said.

The NTAC report, *The State of Behavioral Threat Assessment and Management (BTAM) in K-12 Public Schools*, found that the adoption of BTAM as part of school safety efforts is becoming nearly ubiquitous in the United States, producing reductions in crime, violence, and self-harm. But many schools lack consistent implementation, including in what information is gathered and used to produce a holistic picture of the student's risk profile—either to themselves or to others.

## Deepfake Identity Fraud Poised to Increase Nearly 500 Percent in 2026

Deepfake-enabled fraud is having a moment. Across four main artificial intelligence (AI) attack types, 2026 is on track for a 495 percent increase in deepfake identity fraud over 2025, according to the Identity Fraud Index report from identity management company Shufti.

The report tracked global fraud attempt data and it projected a sixfold jump in deepfake fraud this year compared to 2025, with swift growth in document deepfakes, as well as strong use of synthetic identity fraud.

Deepfakes use AI to create synthetic faces, videos, and identity documents that can pass automated identity checks. The growth of generative AI tools makes this type of fraud more accessible—it no longer takes hours of work and in-depth expertise to craft a fake identity; it takes one image or a text prompt in an AI tool. This has enabled AI fraud to scale rapidly.

## When the Insider Threat Lingers: The Risk That Follows Employment Separations

In February 2023, Russell D. Heller, a supervisor for Public Service Electric and Gas Company (PSE&G), was shot and killed next to his car in the workplace parking lot in New Jersey. The shooter, Gary T. Curtis, was a former PSE&G employee who had been fired in 2022. According to prosecutors, the attack was targeted—retaliation for workplace grievances.

Curtis's family members said he had talked about problems at work and they knew Heller was his supervisor, but they had no insight into Curtis's plans. After the shooting, they described the violence as out of character for Curtis, saying they did not know he owned a gun.

This incident illustrates how a workplace grievance can continue even after a formal separation. Prior to his termination, Curtis voiced his grievances to the company and went as far as filing a complaint with the U.S. Equal Employment Opportunity Commission (EEOC), alleging harassment in the workplace.

# ASIS International Announces the Launching of a New Join Process

Effective February 14, 2024, ASIS International will launch the new join process. What does this mean for our new International members?

1. It will be easier to join ASIS International – the application stays the same, but the payment process will be easier. The website to join International remains <https://www.asisonline.org/join>
2. If International members want to purchase multiple products from the ASIS store with their membership – they will receive the membership discount. For example – someone may decide to add membership and a webinar to their cart – the webinar will be discounted to FREE at checkout due to the customer being recognized as a new member upon purchase.
3. Regardless of when someone joins, their International membership will be good for one FULL year (At this time, if you joined in March – though you'd pay full price, you'd only receive membership for 9 more months).
4. Expiration dates will appear in an International member's My Account section and multiple reminders will be sent out via ASIS International upon renewal time.
5. International members continue to have the ability to sign up for auto renewal and save 5% or renew for three years in advance to save 10% AND lock in the current price.
6. Soon International members will have the option to pay by PayPal.

Once you join – your International expiration date always stays the same. Unless you let your International membership lapse – then you would need to rejoin the International Association and you will receive a new International expiration date.

And when you join the Chicago Chapter as a new member and pay your dues what happens next? Your expiration date for your Chapter Dues will now be the same as your International Dues expiration date.

For now, those of us who have joined International and the Chapter prior to February 14, 2024, your International and Chapter Dues Expiration Date will continue to remain 12/31 of each year.

## ASIS Chicago Chapter Event Registration Information

We always look forward to having everyone join us at our monthly chapter events and we welcome all guests! However, it's essential to ensure that you have provided your up-to-date contact information when signing up for yourself or a guest. We require this information to inform all attendees in case of an emergency, such as a cancellation or change in venue. Unfortunately, during our January meeting, we had to cancel due to a burst water pipe, and we were unable to reach everyone. We noticed that some people did not enter a phone number when registering, or if someone registered a guest, they did not include their contact information. Therefore, please make sure to add your contact information when registering for our events, including your phone number and email address. Current ASIS members can keep this information updated from their International and Chapter profiles, while non-members can update this information when registering for an upcoming event. Thank you, and we look forward to seeing you at one of our future events!

## Making Profile Changes to your ASIS International & Chicago Chapter Profile

Did you know that if you make changes to your ASIS International Profile, you have to go into your Chicago Chapter Profile and do the same? Yes, unfortunately, when an International & Chicago member makes a change to their profile in either system, the changes do not carryover. Thus, if you change jobs, change emails, add a certification, etc., you must make those changes in both systems. So, periodically check your International and your Chicago Profile for accuracy and up-to-date information. Your profile is only as good as you keep it current.

# Do You Feel Overwhelmed by the Emails Being Sent From ASIS?

We have heard from several Chicago members that they feel inundated and overwhelmed with emails from the Chapter. We as a Board and Chairs, do our best to keep our Chapter communications to a minimum. We send out one to two announcements per week for our upcoming events and increase the frequency the week of so that those whose schedules free up at the last minute can attend.

As we investigated this issue further, we believe that perhaps the root of the “too many emails from ASIS” are from International, specifically, the Community Connections emails. Based on your selected preferences in your International profile of interests/expertise, International will then send those applicable Community emails. Those notifications can be modified by going into your ASIS International profile and changing your ASIS Connected Community Settings and/or your email & communication preferences as follows:

Step 1: After logging into ASIS International, click on My Information, select My Account, and then in the ASIS Links box to the right – My Communication Preferences.

Step 2: After making and saving changes scroll to the bottom of the page and click on ASIS Connected Community. Click on My Connections to see which ASIS Communities you are enrolled in and determine how often you want to receive them – daily or weekly. Make your changes and then hit save (also check to see who you are following).

Step 3: Move to the My Community Tab and select Email Preferences and verify or change your preferences and hit save. In this same tab, select Communication Notifications and do the same.

**Need help? Call ASIS International Membership (703-519-6200) and they can help walk you through the process.**

# Update: Meeting Announcements From Chapter Webmaster

Below is an article from StarChapter, our website service and the service we use to send out mass emails to our Chapter members and nonmembers explaining a change in the From Address from mass emails coming from our Chapter. In the past the announcements about our meetings and events used to come from ***webmaster@asischicago.net***. The new email address being used is now: ***postmaster@mg.asischicago.net***. Please make sure that you check your junk and spam folders in case these emails are going there and unblock that new ***postmaster@mg.asischicago.net***. Thanks.

StarChapter made some updates to our mass emailing features to comply with new guidelines required by Google and Yahoo. This change in From Address is in place to ensure to those providers that mass emails coming from your organization are authentic, and not spam. It may take some time for all email providers to adapt based on those guidelines, as all bulk email tools are experiencing an increase in delivery issues immediately following these new requirements. This issue should improve as email providers adapt to the new policies.

Moving forward, all mass email sent through your StarChapter system will be from ***postmaster@mg.yourdomain.ext***. ***Yourdomain.ext*** will be replaced with your organization's domain name. You will still have the ability to add a unique reply-to email address or sender name to your message when setting up your email campaigns.

Please reference ***this article*** for further information and tips to maximize your delivery.

Best,

The StarChapter Team

## Make Sure to Follow the New ASIS Chicago Chapter LinkedIn Page

Hello everybody! Currently, there are two different LinkedIn pages for the ASIS Chicago Chapter. One of the pages is a private group page and the other one is a public company page. These two different LinkedIn pages can often cause confusion on where to look and interact with. Due to these issues, we as a chapter will no longer be supporting or posting on the private group page. All social media content moving forward will be posted on ASIS Chicago Chapter's public LinkedIn page. This new change will give us the option to attract new members to the chapter and upcoming events. If you have not done so already then make sure to follow the new public LinkedIn page to stay up to date with chapter events and news!
